

75590 Allgood Secure 12/24v DC Electromagnetic Low Profile Direct Pull Hybrid Magnet

A low-profile surface door magnet with unique electromagnetic door magnet with patented inbuilt technology ensuring improved performance and reliability and a real alternative to standard face to face magnets. Complete with a conical aperture to receive a strong alloy pin the unit embodies both magnetic and mechanical holding force.

- 1500kg holding force
- Magnet will release with up to 100kg of side load pressure when the power is removed
- Built in LED and dual monitoring (locking and door position)
- Magnets are fitted with EW pressure sensors able to send an alarm before access forced open
- Complete with integral buzzer
- Dual 12/24v DC voltage
- 240mA current draw @12v DC - 120mA current draw @24v DC
- Incorporated in a successful fire test and assessed to BS EN:1634-1 up to 60 minutes on timber doors
- 2 Amp power supply minimum for activation

Available Finishes: XX (Anodised aluminium)
