

75595 Allgood Secure Compact Square Electromagnetic Lock with Armature

- For use with automatic doors and where limited space permits standard maglock installation.
- To be used with 75595ZL adjustable angle support bracket
- For use in single action inward opening door applications
- Suitable where obstructions prevent the fitting of our standard range of magnets due to size restrictions (for example automatic door operators)
- Incorporated in a successful fire test and assessed to BS EN:1634-1 up to 60 minutes on timber doors
- 300kg holding force
- 600mA current draw @ 12v
- MBS (Magnetic bond sensing) monitored

Available Finishes: XX (Nickel plated)
